Pond Certification

I, _____, have reviewed the attached "As-Built" topographic plans and conducted a field verification of the "As-Built" plans for the detention pond and outlet structure and hereby certify that the pond located at _____ Powder Springs, Georgia was built in general accordance with the approved plans and functions as designed. In addition, I certify that during the field verification on _____ the banks of the pond were stable, with no signs of erosion and there was no standing water within the pond (for Dry Ponds). I have also re-run the Hydro Study to ensure that the as-built stage-storage curve is adequate and the post-development discharges meet the requirements of City of Powder Springs Unified Development Code.

Certification to accompany "As-Built" Drawings. Each pond requires a separate Pond Certification.
